Delivering Value to
Global Customers

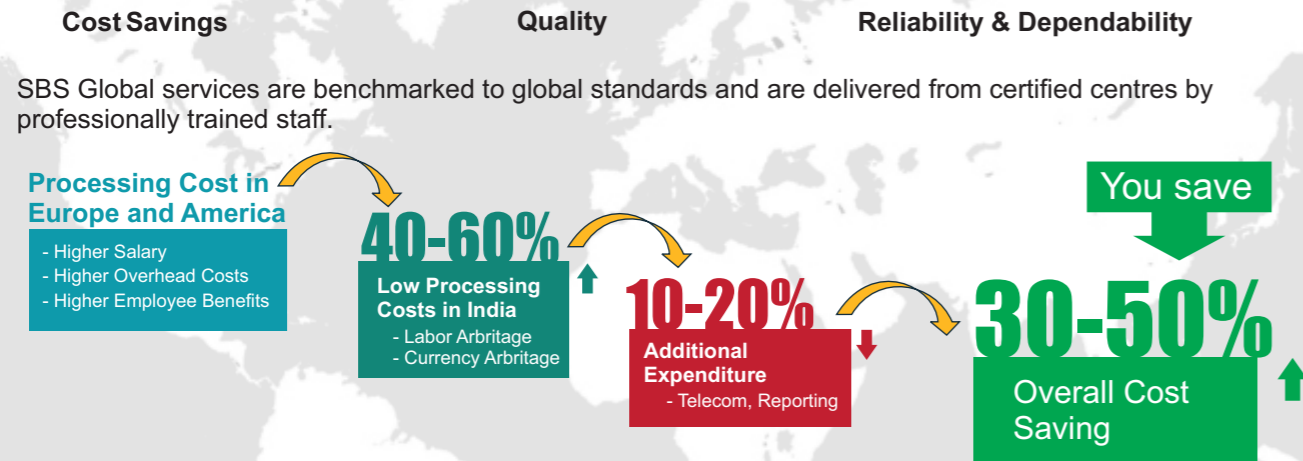

Across Continents

Core Focus & Outsourcing

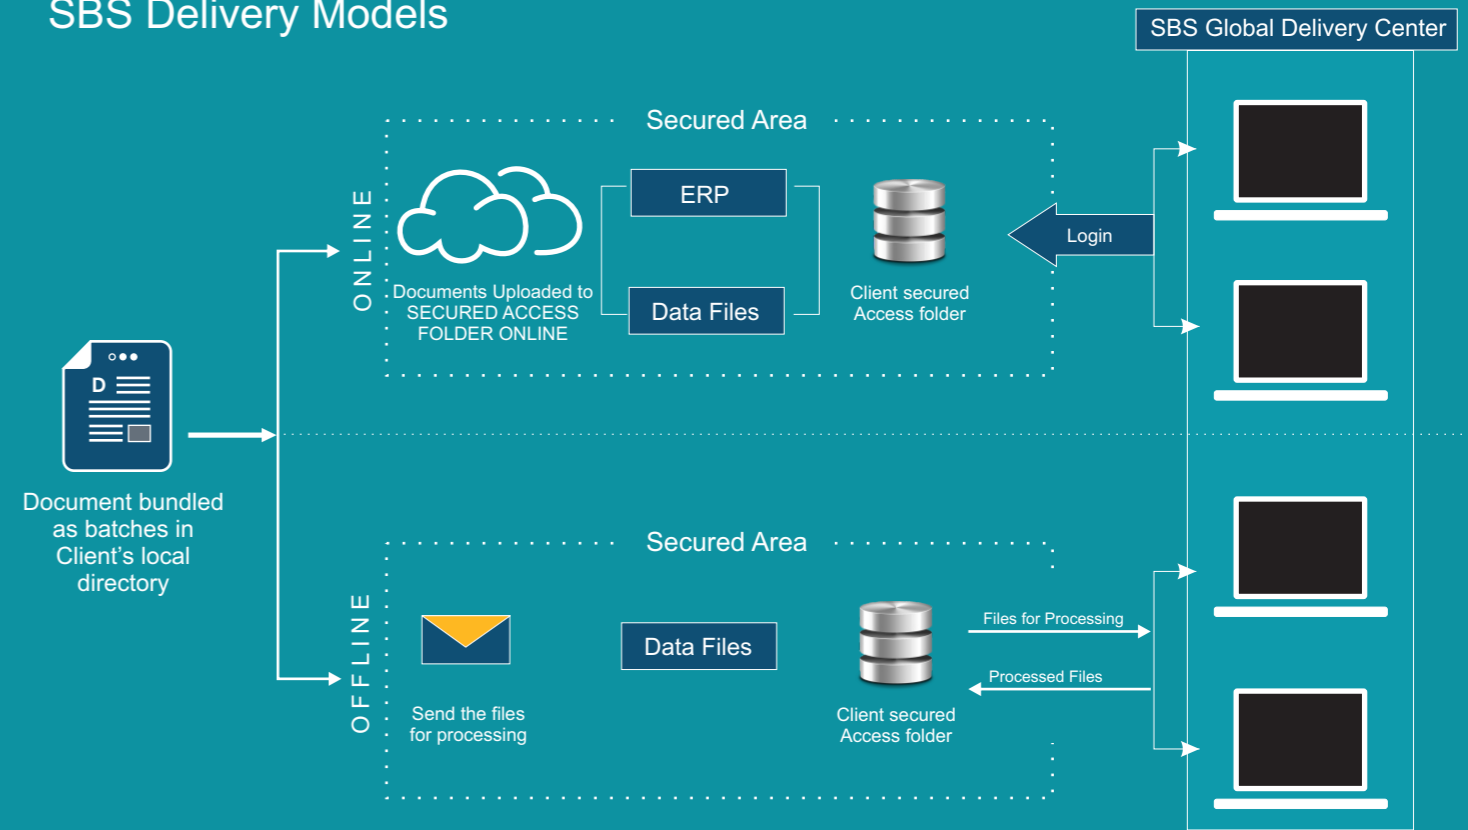

Core focus is a winning strategy adopted by organisations worldwide and it enables deployment of organizational resources on key areas that maximize business results. Outsourcing non-core functions often to lower cost offshore locations is a key element of this strategy and has grown into a business service successfully supporting businesses globally. The enhanced focus on core areas is directly associated with better business results while parameters like process efficiency, cost efficiency and quality drive the direct benefits of outsourcing. The best and long term value of outsourcing is achieved by selecting the right partner and location of services delivery.

Our Value Proposition

At SBS Global, we put our knowledge and expertise to work to meet all aspects of your financial and accounting BPO & KPO requirements in alignment with your outsourcing goals.

SBS Delivery Models

About Us

SBS Global has its origins in a professional consulting practice set up in 2006 to cater to the niche requirements of MNCs in India for quality and reliable services. Over the years we have evolved our portfolio of International Services through our engagements with clients in Europe, USA & the Far East. We have been able to partner with corporates and professional service providers internationally in delivering processes and valued added services delivering hassle free migration, operational stability and scalability.

We constantly upgrade our capabilities and technical systems to deliver services that are benchmarked to international best practises offering enhanced value propositions to our clients and partners globally.

Quality and Processes

SBS Global is an ISO 9001:2008 Certified Company. Our internal processes are oriented towards achieving quality and standards. Our Business Process Management services are benchmarked to industry standards.

Confidentiality and Security

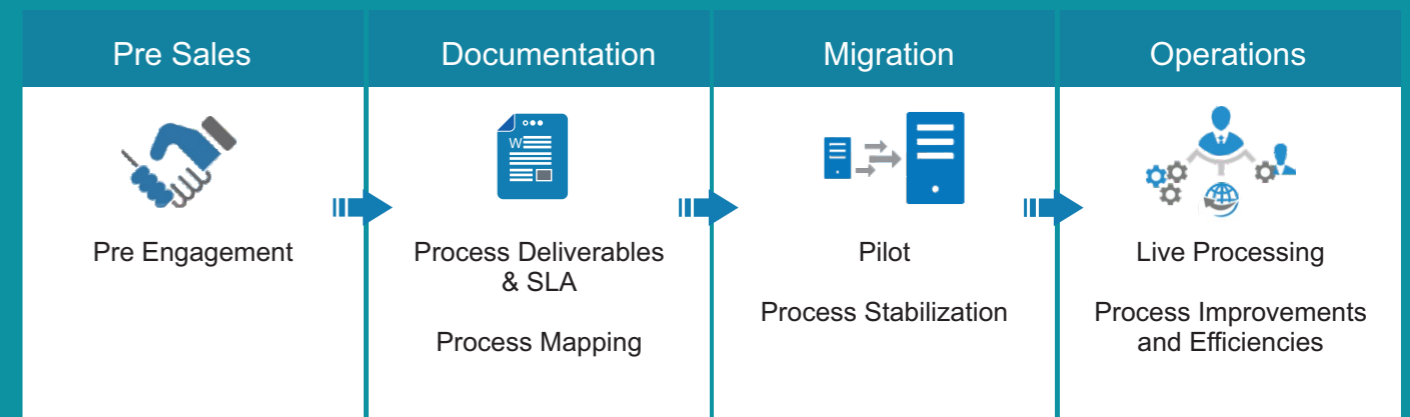

SBS Global is an ISO 27001:2013 Certified Company. Data safety is ensured through stringent information security and confidentiality policies. To ensure the continuation of your critical business processes in case of an event, we have employed disaster recovery and business continuity plans.
